

LIFE FROM INSIDE

April 12, 2012

Dear Valued Customer,

This letter is to inform you of two important updates regarding Bracco A-C-D Solution Modified™ (anticoagulant citrate dextrose solution modified). Currently, the A-C-D Solution Modified in inventory will expire May 31, 2012 with a final selling date of April 20. To support your procedural needs, the product will be sold at a reduced price during this period. The enhanced pricing is listed below.

Once this stock is depleted or the expiration date is met, A-C-D Solution Modified will no longer be available from Bracco. **To this end, the product will be discontinued, effective June 1, 2012.** Bracco is committed to our customers and the patients you serve. However, with significant study decline over the last several years and cost increases, we can no longer offer this product to the community.

Product Code	Product Name/ Description	Clinical Use Description	Market Price	Additional Commentary
10320	A-C-D Solution Modified 10v kit (anticoagulant citrate dextrose solution modified)	A-C-D Solution Modified is for use in the radioisotopic labeling of red blood cells with chromium 51 for intravenous administration.	\$350.00	There are no substitution products available

If you have any questions or require additional assistance, please contact us. We want to thank you for your ongoing support of Bracco and our clinically valued products.

Regards,

Kim Giordano
