Subject: HICON® Package Insert Update

Dear valued customer,

Please be advised that the package insert for “**HICON®** Kit for the Preparation of Sodium Iodide I-131 Capsules and Solution USP Therapeutic – Oral” has recently been updated. Please review, at your convenience, the attached PDF file of the **HICON®** package insert or view the document at www.draximage.com/data/PDF/81_en.pdf.

Please refer to **Section 16.2 – Storage**, and take note of the following important modification regarding the appropriate usage of the **HICON® Blister Packs** (product #500010): “*Discard unused capsules after all Sodium Iodide I-131 Solution has been dispensed or expired. New blister packages of hard gelatin capsules are provided with each new shipment of HICON®.*” Consequently, you should not build or maintain inventory of **HICON® Blister Packs** of dispensed or expired Sodium Iodide I-131 solution.

If you require additional blister packs, you may purchase them separately through our Customer Service Department at customerservice@jdi.jubl.com or 1-888-633-5343.

Thank you for your collaboration.
