

### 111-Indium DTPA Shielding change

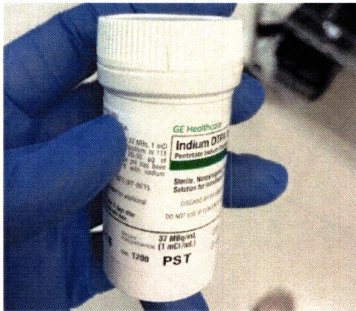

Dear Valued Customer,

Effective August 2019, the Arlington Heights manufacturing facility is upgrading the shielding used to ship 111-Indium DTPA from the current MP-4 shielded container with cap to the custom-designed container (CDC). The CDC is the current shielding used for all other products manufactured at the Arlington Heights site. The CDC will have the same functional characteristics as the MP-4, however, the design is revised, with multiple enhancements included. The CDC also has sufficient diameter to accommodate the upcoming new larger bilingual shield label for Indium DTPA shipped to Canada.

If you have any additional questions, please contact your GE Healthcare Sales Specialist.

If you have any additional questions, please contact your region's GE Healthcare Life Sciences Customer Service Team. The Canadian Customer Service number is 1-800-387-7146. The US Customer Service number is 1-800-292-8514.

#### MP4

#### CDC
