

July 22, 2014

SUBJECT: Modification to Capsule Appearance
 Sodium Iodide I 123 Capsules 100 μ Ci
 Sodium Iodide I 123 Capsules 200 μ Ci
 Sodium Iodide I 131 Capsules Therapeutic

Dear Valued Customer:

Mallinckrodt Pharmaceuticals is focused on controlling rising costs and improving efficiencies by eliminating unnecessary production steps at our Maryland Heights nuclear medicine manufacturing facility. In support of that goal, we are implementing the following changes to the products referenced above:

- We will no longer be printing the item number and NDC number on the outside of each capsule.
- The color of each capsule remains unchanged, and will continue to be differentiated to facilitate easy identification of each product.
 - Sodium Iodide I 123 Capsules 100 μ Ci – red and white capsules
 - Sodium Iodide I 123 Capsules 200 μ Ci – green and white capsules
 - Sodium Iodide I 131 Capsules Therapeutic – white capsules

These changes will be effective on Friday, August 1, 2014.

Should you have any questions or concerns, please contact your Mallinckrodt sales representative or our Customer Service department at 888-744-1414.

For Important Risk Information, please see enclosed Full Prescribing Information for both products.

Thank you for your continued support. We appreciate your business.

Sincerely,

Dave Koerber
Marketing Product Manager, Nuclear Medicine
