Features

Expert-sorted articles

Each article has been fully reviewed and sorted by our panel of experts. Experts know the limits of information.

Personal folders

Stay organized by creating folders in which to easily save articles you are interested in. Bookmark any article with one click.

Upload, store, and manage article PDF's

With a quick and easy upload form and a comprehensive management tool, put your articles here and never lose them. They can be instantly available from any online computer.

Join and create collaborations

When working on a collaborative project, pool resources. Easily create collaborative efforts and allow temporary access to collective files.

Export articles to EndNote

Saving references has never been so easy. Any articles you save can be imported to EndNote with a click of a button.

Talk with your peers

Community discussion panels enable you to share information, news, and critically discuss topics within your area of research.

Benefits

Save money by saving time

Find exactly what you are looking for in seconds, versus searches that used to take hours. Gain rapid and unprecedented insights into important clinical information or the latest research with a few simple mouse gestures.

Keep up to date

New articles are categorized in the Tree of Medicine on a daily basis. Keep track of every new article in the field as it is published.

Confidence in your references

With Tree of Medicine experts manually sorting the articles, achieve a level of accuracy unmatched by traditional methods. Instantly view articles related to your exact area of interest. Capture the entire boundaries of a topic.

Writing grants just got easier

One of the most painful steps in writing a grant is vastly simplified. The time consuming task of assembling the most relevant articles is nearly eliminated.

Manuscripts

We know how time consuming and tedious the task is to assemble the most appropriate references for a manuscript. This task will now take minutes, not hours. Have the confidence that the most up to date references are included in your manuscript.
